PARASITOLOGY TODAY

REFERENCE EDITION

Volume 3

1987

CONTENTS

JANUARY

News and Comment
The Control of Schistosomiasis – is a Vaccine Neccessary? *by A. E. Butterworth, H. A. Wilkins, A. Capron and A. Sher* 1
In vitro Cultivation of *Sarcocystis* Merozoites, *by C. A. Speer and D. E. Burgess* 2

Debate
Control of East Coast Fever, *by T. T. Dolan* 4
and R. J. Tachell 7

Review
Immunity in Human Schistosomiasis, *by A. E. Butterworth and P. Hagan* 11
Sarcocystosis, *by I. V. Herbert and T. S. Smith* 16

Focus
The Economics of Schistosomiasis Chemotherapy, *by N. M. Prescott* 21
Monoclonal Antibodies for Immunodiagnosis of Human Hydatidosis, *by G. Di Felice and A. Siracusano* 25
Progress Towards a Defined Vaccine for Schistosomiasis, *by A. J. G. Simpson and D. Cioli* 26

Hi Tech
Production of Parasite Antigen by Co-Transformation, *by P. L. Beardsell and M. J. Howell* 28
Radiological Diagnosis of Neurocysticercosis, *by C. A. Camargo and W. H. Marshall* 30

Alternative Answers
Control of Opisthorciasis through Community Participation, *by S. Sornmani* 31

Book Review
Amebiasis, *by D. C. Warhurst* 34

FEBRUARY

News
New Zealand Oysters under Threat 36

Debate
The Pathogenicity of *Entamoeba histolytica, by D. Mirelman* 37
and P. G. Sargeaunt 40

Review
Anisakiasis – Is the Sushi Bar Guilty? *by T. Oshima* 44
Trypanosoma (Duttonella) vivax, by P. R. Gardiner and A. J. Wilson 49

Focus
Malaria Invasion of Human Erythrocytes, *by P. Hermentin* 52
Helminth Fecundity: Density dependence or Statistical illusion? *by A. E. Keymer and A. F. G. Slater* 56

Letters
Non-Lymphokine Mediated Antileishmanial Defence, *by D. J. Wyler and J. Sypek* 59
Why is Ringworm called Ringworm? *by Ernest A. Meyer* 59

Hi Tech
Molecular Weight Separation of Very Large DNA, *by H. J. S. Dawkins* 60

Alternative Answers
Wanted: Entrepreneurial Parasitologists, *by M. Miller* 62

Book Reviews
Foundations of Parasitology, *by K. Vickerman* 64
Laboratory Animal Husbandry: Ethology, Welfare and Experimental Variables, *by J. Cherfas* 64
Chemicals for Animal Health Control, *by W. C. Campbell* 65
Parasite Antigens in Protection, Diagnosis and Escape, *by V. Britten* 66

MARCH

News and Comment
Sheep strike and Mulesing, *by C. Townend* 68
Hoogstraal Centre for Tick Research 76

Debate
The Role of Molluscicides in Schistosomiasis Control, *by A. Fenwick* 70
and R. K. Klumpp and K. Y. Chu 74

Review
Immunological responses to Parasitic Arthropods, *by R. W. Baron and J. Weintraub* 77

Focus
Haemoglobinopathies and Malaria: New Approaches to an Old Hypothesis, *by A. V. S. Hill* 83
Flying Squirrels and their Ectoparasites: Disseminators of Endemic Typhus, *by J. E. McDade* 85
Host Specificity of Trichodinid Ectoparasites of Freshwater Fish, *by J. G. Van As and L. Basson* 88

Hi Tech
Choice of Sample Size in Parasitological Experiments, *by M. J. R. Healy* 91

Alternative Answers
Low-cost Sanitation Technology for the Control of Intestinal Helminths, *by S. Cairncross* 94

Book Reviews
Living Together. The Biology of Animal Parasitism, *by S. L. Croft* 98

APRIL

News and Comment
Crude Oil and Parasites of Fish, *by R. A. Khan* 99

Debate
The *Isospora – Toxoplasma – Sarcocystis* Confusion, *by N. D. Levine* 101
and J. R. Baker 103

Review
Injection versus Infection: The Cellular Immunology of Parasitism, *by G. F. Mitchell* 106

Parasite Pathology
The Pathogenesis of Amoebiasis, *by A. Martinez-Palomo* 111
BOSTID Grants for Mosquito Vector Field Studies 118

Letters
Traditional Anti-Malarials – Sri Lankan Experience, *by J. S. Edirisinghe* 119
Laminin in Chagasic Autoimmunity, *by J. Milei and R. A. Storiño* 119
Reply, *by F. Kierzenbaum* 119
Too Many Gene Libraries? *by L. Grodzinki* 120

Focus
Summer Mastitis: Vector Transmission or Not? *by J. E. Hillerton* 121
How much Ascariasis is there in Africa? *by D. W. T. Crompton and J. J. Tulley* 123
April Notes on Original Discoveries, *by C. A. M. Bell* 128

Book Review
Pests and Parasites as Migrants, *by I. Beveridge* 127

MAY

Review
Screwworm Eradication in North and Central America, *by E. S. Krafsur, C. J. Whitten and J. E. Novy* 131
Genetics and Trypanotolerance, *by R. B. Dolan* 137
Towards Global Control of Cystic and Alveolar Hydatid Disease, *by M. A. Gremmell, J. R. Lawson and M. G. Roberts* 144

Focus
The Promastigote Surface Protease of *Leishmania, by C. Bordier* 151
Genetic Variability in Endoparasitic Helminths, *by S. A. Nadler* 154
Sex Attractants in Nematodes, *by B. M. MacKinnon* 156

Letters
Zymodemes of *Entamoeba histolytica, by P. G. Sargeaunt* 158

Hi Tech
Micromotility Meter: Instrumentation to Analyse Helminth Motility, *by J. L. Bennett and R. A. Pax* 159

Alternative Answers
Financial and Economic Aspects of Environmental Management for Vector Control, *by R. Bos and A. Mills* 160

Book Reviews
A Manual of Forensic Entomology, *by Y. Z. Erzinclioglu* 163
Morphology, Physiology and Behavioural Biology of Ticks, *by M. G. R. Varma* 164

JUNE

News and Comment
Human Migration and the spread of Malaria in Brazil, *by A. Cruz Marques* 166
Wellcome Malaria Exhibition 170
Epidemiology and Health Education in Argentina 170

Reviews
Arrested Larval Development in Cattle Nematodes, *by J. Armour and M. Duncan* 171
DNA Diagnosis of Human Leishmaniasis, *by D. C. Barker* 177

Letters
Infective Stages of Free-living Amoebae, *by R. K. Mehlotra* 185
Reply, *by D. C. Warhurst* 185
Trypanosome Culture, *by A. Solari* 185

Focus
Immune Response of Fish to Parasitic Protozoa, *by P. T. K. Woo* 186
Trypanosoma cruzi Populations: More Clonal than Sexual, *by M. Tibayrenc and F. J. Ayala* 189
Malaria: an Intra-erythrocytic Neoplasm? *by Ya Zhang* 190

Book Reviews
A Colour Atlas of Equine Parasites, *by C. J. Schofield* 193
The Microsporidia of Vertebrates, *by F. E. G. Cox* 193
Prevention and Control of Nosocomial Infections, *by C. F. Gilks* 194
Trypanosomiasis: A Veterinary Perspective, *D. G. Godfrey* 194

JULY

News and Comment
Emerging Tick-Borne Diseases in Temperate Climates, *by J. Piesman* 197

Review
Do Hookworms Elicit Protective Immunity in Man? *by J. M. Behnke* 200

Parasite Pathology
Asymptomatic Malaria Infections – Do They Matter? *by B. M. Greenwood* 206

Focus
Antibacterial Action of Myiasis-causing Flies, *by G. R. Erdmann* 214
Pathology of Malaria-infected Mosquitoes, *by W. A. Maier H. Becker-Feldman and H. M. Seitz* 216
VIIIth Ecdysone Workshop, *by J. G. Mercer* 219

Hi Tech
CTAB Precipitation of Cestode DNA, *by K. W. Yap and R. C. A. Thompson* 220

Alternative Answers
Community-based Malaria Control in India, *by V. P. Sharma* 222

Book Review
The Ruminant Immune System in Health and Disease, *by D. Wakelin* 226

AUGUST

News and Comment
External Debt Limits Health Interventions, *by Bishakha Mukherjee* 228
Sporozoite Rate and Prevalence of Malaria, *M. H. Birley and J. D. Charlewood* 231

Reviews
Control of Malaria and Filariasis Vectors in South India, *by P. K. Rajagopalan, K. N. Panicker and P. K. Das* 233
Spread of Chloroquine Resistance in *Plasmodium falciparum, by D. Payne* 241
Hookworm antigens: the Potential for Vaccination, *by P. J. Hotez, N. Le Trang and A. Cerami* 247

Letters
Clark Foundation Policy, *by J. A. Cook and L. Grodzinski* 250
Beyond the Oocyst: Over the Molehills and Mountains of Coccidialand, *by J. K. Frenkel, H. Mehlhorn and A. O. Heydorn; by J. R. Baker* 250
Reply 252
Falciparum Nomenclature, *by L. J. Bruce-Chwatt* 252
Art and Nature, *by L. G. Goodwin* 252

Focus
Genetic Resistance to Haemonchosis in Sheep, *by G. D. Gray* 253
Reversal of Chloroquine Resistance in Falciparum Malaria, *by J. C. Ryall* 256

Book Reviews
Parasite Antigens, *by A. Sher* 257
Carbamate Pesticides: A General Introduction, *by J. Goose* 257

SEPTEMBER

News and Comment
TDR Finances improve – but not yet smooth, *by I. Jones* 260
Outbreak of Hydatid Disease in Western Australia, *by R. C. A. Thompson* 261
International Commission for Zoological Nomenclature 262

Review
Molecular Mimicry Revisited, *by R. Damian* 263
Microsporidia of Mammals – Widespread Pathogens or Opportunistic Curiosities? *by E. U. Canning and W. S. Hollister* 267

Focus
False Parasites in Tissue Sections, *by J. K. Baird* 273
Effects of Host Grooming on Louse Populations, *by M. D. Murray* 276
Eicosanoids as Immunomodulators of Penetration by Schistosome Cercariae, *by B. Salafsky and A. Fusco* 279

Letters
The Tapeworm Trap and Other Esoteric Remedies for Intestinal Helminths, *by P. W. Pappas* 282
Song of *Hyalomma, by W. C. Camfellow* 283
Shakespearian Parody, *by J. R. Baker* 283

Hi Tech
Fluorescent Probes for Detection of Protozoan Parasites, *by F. Kawamoto and N. Kumada* 284

Alternative Answers
The Impact of Small Dams on Parasitic Diseases in Cameroon, *by C. L. Ripert and C. P. Raccurt* 287

Book Review
Hemocytic and Humoral Immunity in Arthropods, *P. A. Rossignol* 289

OCTOBER

News and Comment
Progress in *in-vitro* Culture of the Malaria Life Cycle, *by R. E. Sinden* 292

Review
Antigen Presentation and the Response to Parasitic Infection, *by P. M. Kaye* 293
Cell-Mediated Immunity in Protection and Pathology of Malaria, *by I. A. Clark* 300

Focus
Predator-Prey Interactions between Ectoparasites, *by L. A. Durden* 306
Control of Lymphoproliferation by *Theileria annulata, by M. Dyer and A. Tait* 309
Trypanothione Metabolism: a Chemotherapeutic Target in Trypanosomatids, *by G. B. Henderson and A. H. Fairlamb* 312

Hi Tech
Rapid Characterization of Recombinant λgt11 Clones expressing Parasite Antigens, *by J. M. Kelly and M. L. Blaxter* 315

Alternative Answers
Ecological Mapping to Support Mosquito Control on the French Mediterranean Coast, *by A. Gabinaud* 317

Book Reviews
Filariasis, *by S. Lindsay* 320
Veterinary Parasitology, *by J. R. Allen* 320
Anatomical Drawings of Biting Flies, *by C. J. Schofield* 321

NOVEMBER

News and Comment
Cable bugs – Mysterious Biting Insect or Faulty Diagnosis? *by W. J. Simpson* 323
Bloodmeal Identification in Vectors 324

Reviews
Myxosporea: a New Look at Long-known Parasites of Fish, *by J. Lom* 327
Treatment and Prophylaxis for *Pneumocystis carinii* Pneumonia, *by W. T. Hughes* 332
Control of Chagas Disease in Brazil, *by J. C. P. Dias* 336

Focus
Trematode Eggshells: Novel Protein Biopolymers, *by J. S. Cordingley* 341
Cachectin – Tumour Necrosis Factor: a cytokine that mediates injury initiated by invasive parasites, *by B. Beutler and A. Cerami* 345
Plerocercoid Growth Factor: a Homologue of Human Growth Hormone, *by C. K. Phares* 346

Letters
The Potential for Drug Resistance in Schistosomiasis, *by G. C. Coles, J. I. Bruce, G. K. Kinoti, W. T. Mutahi, L. C. S. Dias, R. S. Rocha and N. Katz* 349
Schistosome Economics, *by R. M. Anderson and G. F. Medley* 350
Reply, *by N. M. Prescott* 351
Entamoeba histolytica: is it necessary to characterize pathogenic strains? *R. N. Prasad and K. J. Virk*
Entamoeba histolytica: zymodeme and pathogenicity, *by R. K. Mehlotra* 352
Reply *(pro), by P. G. Sargeaunt*
Reply *(contra), by D. Mirelman and G. D. Burchard* 353

Book Review
Primaquine: Pharmacokinetics, Metabolism, Toxicity and Activity, *by D. C. Warhurst* 353

DECEMBER

News and Comment
A *Dipetalonema* by Any Other Name, *by R. Muller* 358

Review
Parasites of the Christmas Turkey, *by P. L. Long, W. L. Current and G. P. Noblet* 360

Focus
Public Health Importance of *Angiostrongylus cantonensis* and its Relatives, *by J. H. Cross* 367

Letters
Interaction of Malaria with Mosquitoes, *by T. Ponnudurai and J. F. G. M. Meis* 369
Reply, *by W. Maier* 369
More Gene Libraries and More Operational Research, *by P. Jordan* 370

Hi Tech
DNA Probes in the field; Trypanosome Species-specific DNA Probes to Detect Infection in Tsetse flies, *by O. K. ole-MoiYoi* 371
Detection of South American Trypanosome Infections using Total Parasite DNA Probes, *by S. Greig and F. Ashall* 375
DNA Probes to Identify *Onchocerca volvulus, by T. R. Unnasch* 376
Highly Repeated DNA Sequences as Species-specific Probes for *Brugia, by W. F. Piessens, L. A. McReynolds and S. A. Williams* 377
DNA Hybridization Assays for Detection of Malarial Sporozoites in Mosquitoes, *by M. Holmberg and H. M. Wigzell* 379
Probing the Unknown, *by R. J. Post and J. M. Crampton* 380

Alternative Answers
Rural Housing for Control of Chagas Disease in Venezuela, *by R. Briceño-Leon* 384

Book Reviews
Recent Advances in Electron and Light Optical Imaging in Biology and Medicine, *by D. Russell* 388
CDRI Researches on Parasite Diseases 1987, *by L. G. Goodwin* 388
